

Response for Superfund NPL Site Impacts due to Hurricane Harvey  
September 1, 2017

There are 41 NPL sites (proposed, final, and deleted) in the current federally declared counties and parishes. The status of the sites in the NPL process varies:

- 28 have final remedies in place
- 4 have on-going remedial actions
- 8 are in the investigation phase
- 1 pre-investigation phase

Priority/Schedule for Inspection (example form attached)

In consultation with TCEQ and LDEQ, we have developed the following priorities for inspection:

1. Sites with on-going remediation or high potential for release – Week of 9/5/17
